

BiermannPartners AG

Our core competence lies in the worldwide identification, direct address and evaluation of executives and specialists in banking. Thanks to the very close contact to executives and strategic decision-makers, we generate unknown possibilities and ideas consecutively. During the selection process of the best associates possible, we set ourselves apart from our contestants with new ways and define ourselves through confidence, reliability, teamwork and flexibility. We are executive search consultants – but we even more see ourselves as “information managers”.

Portfolio Manager Sustainable Equities

Company

For our client, a well-known international investment manager located in the region of Zurich, we are looking for a Portfolio Manager Sustainable Equities.

Tasks

- Independent preparation and implementation of vital investment decisions for active sustainability portfolios;
- Monitoring various global equity sectors by combining fundamental and sustainability analysis;
- Controlling and enhancing different Sustainability Themes;
- Utilization of your Sustainability knowledge to generate superior risk-adjusted returns;
- Define, lead, implement and enhance portfolio & risk management processes. Establish & monitor investment and risk guidelines. Overview all portfolio management aspects and ensure successful execution;
- Cooperating intensively with our key account management, the institutional sales teams, the product development department, the middle office and the operations teams;
- Provide accurate and on-time responses to investor specific queries.

Profile

- Academic degree in sciences, economics, maths (MBA or equivalent). Additional diplomas like CFA, CAIA or AZEK would be a plus;
- At least 4 years investment experience in the sustainability area (either as portfolio manager or as equity analyst). If necessary, the candidate can demonstrate performance that can be independently verified;
- Profound knowledge of sustainability issues (ESG) and distinct analytic skills. Experience in state-of-the-art techniques in portfolio management;
- Advanced knowledge of capital markets;
- Pragmatic and hands-on attitude;
- Effective communication skills and the ability to do presentations to professional groups. Must have excellent verbal and written English skills and at least basic German skills. Other languages are a plus.
- Accuracy, highly organized, self-motivated, has the capability to run and grow a business
